Testing and Debugging	● ● ● ● ●

### 🧩 Soft skills

Communication	Creative thinking
Teamwork	Problem solving
Time management	

### 🎓 Education

Lagos State University, Bsc Chemistry  
2017 – 2022 | Lagos, Nigeria

### 📁 Professional Experience

#### FrontEnd Developer Intern

2022 | Lagos, Nigeria

- Completed a 5-month program in frontend development, where I gained experience in HTML/CSS, JavaScript, and React.
- Worked on a team project to build a web application that allows users to search for and book rental properties.
- I also gained experience working with frontend frameworks like React, which allowed me to build complex web applications more efficiently.
- Earned a certification in web accessibility, demonstrating my commitment to creating inclusive and accessible websites.

### 📁 Personal Projects

#### Interactive card form

- A Project built using Html, CSS, and JavaScript to update users' information on a card dynamically.
- Designed using HTML, CSS, and JavaScript.
- Leveraged grid system for the layout.
- Hosted on the web using Vercel,

#### To do App

- An App built from scratch where you can add, delete, update, and filter through multiple activities and todos.
- Designed using HTML, CSS, and JavaScript.
- Responsive Design using CSS media queries and Flexbox.
- Hosted on the web using Vercel,

#### Country Api

A Country API is an Application Programming Interface that provides access to country-related data. The data includes information such as country codes, names, borders, and flags. The Country API can be used to look up countries by various criteria, such as name, code, or region. It can also be used to fetch all countries in a given region.

- Designed using HTML/CSS/JS/API.
- Hosted on the web using Vercel,
